PROFESSIONAL SUMMARY

QA Intern at PB Fintech (Policybazaar.com) with hands-on experience in API testing, SQL-based backend validation, and manual testing across insurance data pipelines. Built Power BI dashboards and automated MIS reports that convert raw data into actionable business insights. Open to Data Analyst, MIS Executive, or QA Analyst roles where data quality and business impact matter.

TECHNICAL SKILLS

SQL / Databases: MS SQL Server, MySQL — Complex Queries, Joins, Subqueries, Data Validation, Aggregations
Power BI: DAX Measures & Calculated Columns, Interactive Dashboards, Drill-through Reports, Sales KPI Reporting
Excel: Pivot Tables, Power Query, VLOOKUP, HLOOKUP, Conditional Formatting, Automated MIS Reports
Python: Pandas, NumPy, Matplotlib — Data Cleaning, Exploratory Data Analysis (EDA)
QA & Testing: Manual Testing, API Testing (Postman), Test Case Design, Bug Tracking, Defect Lifecycle

EXPERIENCE

Quality Assurance Intern — Data & Testing **Feb 2026 – Present**
PB Fintech (Policybazaar.com) — Gurgaon, Haryana | Tools: SQL, Postman, Google sheet, JIRA

- Validated critical database tables using complex SQL queries — reduced data discrepancy rate by ~30% in insurance policy records.
- Designed and executed 50+ test cases for functional and API testing — identified 15+ critical defects before production deployment, saving rework time.
- Cross-validated 100% of API responses against database outputs using SQL — ensured zero data mismatch in production reporting.
- Collaborated with 3-member dev team to root-cause backend anomalies — contributed to faster bug resolution cycle and improved data pipeline reliability.

PROJECTS

Flipkart Sales Analysis Dashboard Power BI | DAX | Power Query

- Built a interactive Power BI dashboard tracking revenue, category-wise sales, and regional KPIs — enabling instant drill-down from ₹ totals to SKU-level performance.
- Wrote 10+ DAX measures for YoY growth, profit margin %, and top-10 product ranking — reduced manual reporting time by ~4 hours/week.
- Cleaned and transformed raw sales dataset of 10,000+ rows using Power Query — cut data prep time from 2 hours to 15 minutes.

Automated Sales & Revenue MIS Report Advanced Excel | Power Query | Pivot Tables

- Built a fully automated monthly MIS report using Pivot Tables + Power Query — eliminated 3+ hours of manual effort per reporting cycle.
- Designed dynamic dashboards with conditional formatting — flagged variance >10% from targets automatically, making exceptions instantly visible.

EDUCATION

Master of Computer Applications (MCA) **2024 – 2026**
ITM University, Gwalior | CGPA: 7.50 / 10 (Semester 1–3)

Bachelor of Arts (B.A.) **2021 – 2024**
Jiwaji University, Gwalior | 64.6%

CERTIFICATIONS & ACHIEVEMENTS

- **SQL Basic & Intermediate** — HackerRank ✓ Verified Credential
- **Complete Database Management System** — Infosys Springboard
- **Smart India Hackathon 2025** — National Level Participant (Top competitive innovation challenge)
