ABHISHEK PANDEY

abhishekpandeyy.work@gmail.com +91 7678306151 LinkedIn | GitHub

MCA student specializing in Java backend development with hands-on experience in Spring Boot, microservices, and distributed systems. Proven ability to build scalable applications with real-world impact.

TECHNICAL SKILLS

Languages	Java, SQL, JavaScript, React
Backend & Frameworks	Spring Boot, REST APIs, Apache Kafka, Spring Security, Spring Data JPA
Databases	PostgreSQL, MySQL, MongoDB
Tools & DevOps	Git, GitHub, Postman, IntelliJ IDEA, VS Code, AWS, Docker
Concepts	Microservices Architecture, RESTful Design, SOLID Principles, MVC Pattern

PROJECTS

MidasCore – Financial Transaction Processing System

Spring Boot | Apache Kafka | REST APIs | Microservices

- Developed microservice for real-time financial transactions with secure balance validation and atomic updates
- Integrated third-party incentive API enabling incentive-based transactions with fallback mechanisms
- **Reduced transaction processing time by 35% through optimized validation logic and caching strategies**
- Implemented event-driven architecture using Kafka for asynchronous transaction processing

Hospital Management System

Java | Spring Boot | PostgreSQL | Spring Security | JPA

- Built scalable backend system managing hospital operations including patient records, doctor profiles, and appointment scheduling
- Designed RESTful APIs following layered architecture (Controller, Service, Repository) with separation of concerns
- Implemented role-based access control using Spring Security with JWT authentication for patients and doctors
- Optimized database queries using Spring Data JPA with custom query methods and pagination
- Added global exception handling and input validation ensuring robust API behavior with proper HTTP status codes

AcadXpert – Academic Management System

MERN Stack | Node.js | Express.js | MongoDB | React

- Built full-stack digital admission and academic management platform with automated workflows
- Implemented secure JWT authentication with role-based dashboards for students, faculty, and administrators
- Automated administrative workflows reducing manual effort and improving operational efficiency
- Designed cloud-ready architecture with horizontal scaling capabilities and MongoDB replica sets

EDUCATION

Master of Computer Applications (MCA) | 2024 – 2026 (Pursuing)

Centre for Development of Advanced Computing (CDAC), Noida

Bachelor of Computer Applications (BCA) | 2021 – 2024

Institute of Innovation in Technology & Management (IITM), Delhi

CERTIFICATIONS & TRAINING

- **AWS Solutions Architecture Job Simulation – Forage**
- **Software Engineering Job Simulation – JP Morgan Chase & Co. (Forage)**
- Java Programming – GeeksforGeeks
- Cloud Computing Bootcamp – CDAC Noida
- Big Data and Data Science Bootcamp – CDAC Noida
- AI Agent Architect – IBM SkillBuild

LEADERSHIP & ACTIVITIES

Technical Head – Social Media & Knowledge Committee

Institute of Innovation in Technology & Management (IITM), Delhi

- **Created digital campaigns and content strategy increasing student engagement by 50%**
- Automated reporting processes using scripts, saving 4+ hours per week in manual work
- Organized 3+ technical hackathons and workshops promoting cross-department collaboration

Conference Helper – International Conference ETTIS

Centre for Development of Advanced Computing (CDAC), Noida

- Coordinated with professors and speakers nationwide to gather reviews on student presentations
- Managed event scheduling and communication ensuring smooth conference operations
