WORK EXPERIENCE

INNOV8 WORKSPACES

Business Development Associate — **Nov 2024- Present**

- Act as the primary point of contact for customers, addressing queries, concerns, and service requests through calls, emails, chats, and support tickets.
- Provide timely and effective resolution to customer issues while maintaining high customer satisfaction levels.
- Manage and track customer requests through CRM and ticketing systems, ensuring proper follow-up and closure.
- Coordinate with internal teams such as Operations, Sales, Finance, and Facility Management to resolve customer concerns efficiently.
- Handle member onboarding, account management, renewals, and service-related inquiries.
- Monitor customer feedback and identify recurring issues to recommend process improvements.
- Maintain accurate records of customer interactions, complaints, and resolutions.
- Assist in preparing customer service reports, performance metrics, and analysis of support trends.
- Ensure adherence to company policies, service standards, and response time commitments.
- Build strong relationships with members and clients to enhance customer experience and retention.
- Support escalation management by investigating complex issues and coordinating with relevant stakeholders for resolution.
- Contribute to customer engagement initiatives and retention programs to improve overall member satisfaction.

POLICY BAZAAR

Customer Relationship Service — **Oct 2023- June 2024**

- Assisted customers in selecting suitable insurance and investment products, helping them secure their financial future and protect their families.
- Handled customer interactions through calls, emails, and digital channels, providing prompt resolutions and ensuring a positive customer experience.
- Guided customers in comparing insurance policies and financial products available on the company's digital platform, enabling informed decision-making.
- Managed customer queries, policy-related concerns, and escalations while coordinating with internal teams and insurance partners for timely resolution.
- Maintained accurate customer records in CRM systems and contributed to customer retention through personalized support and relationship management.

PROJECTS

- **Big Data** -Big data refers to data sets that are too large or complex to be dealt with by traditional data-processing application software. Data with many fields offer greater statistical power, while data with higher complexity may lead to a higher false discovery rate.
- **CRIC PEDIA**- Cricketpedia is the only platform where you get unbiased tips and tricks to form Fantasy XI and win huge amount of money. The platform's ingenious AI tool crunches thousands of stats to bring you the winning XI for every IPL match. The AI tool builds upon the concept of Moneyball and ensures ti provides you the winning XI each time.
