PROFESSIONAL EXPERIENCE

INNOV8 WORKSPACES

Business Development Associate
Nov 2024 – Present

- Serve as a primary point of contact for members and customers, handling queries and service requests across calls, emails, chats, and support channels.
- Build and maintain strong client relationships to improve engagement, satisfaction, renewals, and retention.
- Support member onboarding, account management, renewals, and service requirements across the customer lifecycle.
- Understand customer needs, coordinate suitable solutions, and follow up proactively to ensure timely closure.
- Coordinate with Sales, Operations, Finance, and Facility Management teams to resolve customer requirements efficiently.
- Manage customer requests through CRM and ticketing systems, ensuring accurate records and disciplined follow-ups.
- Monitor feedback and recurring concerns, recommending improvements to strengthen customer experience and retention.
- Support escalations, customer engagement initiatives, reporting, and performance analysis while maintaining service standards.

POLICYBAZAAR

Customer Relationship Service
Oct 2023 – Jun 2024

- Assisted customers in understanding and selecting suitable insurance and investment products based on their requirements.
- Engaged customers through calls, emails, and digital channels, providing timely information and resolving queries.
- Guided customers in comparing insurance policies and financial products available through the digital platform.
- Managed policy-related concerns and escalations while coordinating with internal teams and insurance partners.
- Maintained accurate customer records in CRM systems and supported retention through personalized relationship management.
- Developed strong communication, product-guidance, objection-handling, and customer relationship skills in a target-driven environment.

EXPERTISE

Sales Management Techniques • Strategic Planning • Customer Satisfaction • Market Analysis • Communication • Data Analysis • Development

PROJECTS

Big Data
Explored large and complex datasets and the challenges involved in processing and analyzing them beyond traditional data-processing applications.

CricPedia / Cricketpedia
Worked on a cricket-focused platform concept using statistical analysis and AI-based insights to generate Fantasy XI recommendations for IPL matches, drawing on the Moneyball approach.
