# TANNU KUMARI

*Data Analyst*

Delhi, India | +91 9717097740 | Tannugoswami201@gmail.com | linkedin.com/in/tannu-kumari-5285a0258

## PROFESSIONAL SUMMARY

Aspiring Data Analyst with a strong foundation in Python, SQL, Excel, and Power BI. Experienced in developing data analysis and dashboard projects involving data cleaning, visualization, and business insights. Passionate about transforming data into meaningful information and seeking an opportunity to begin a career in data analytics.

## TECHNICAL SKILLS

- **Programming Languages: Python, SQL**
- **Python Libraries: Pandas, NumPy, Matplotlib, Seaborn**
- **Data Analysis & Visualization : Power BI(DAX, Power Query), Matplotlib, Seaborn, Excel(Charts)**
- **Databases : SQL (SQL Server), Queries, Joins,Window**
- **Data Techniques : Data Cleaning, Data Transformation, Data Validation, Exploratory Data Analysis (EDA)**
- **Microsoft Tools: Microsoft Excel (Pivot Tables, XLOOKUP, VLOOKUP, Data Cleaning), Microsoft PowerPoint**
- **Tools & Platforms: Jupyter Notebook, PyCharm, Power BI, Microsoft Excel, SQL Server Management Studio**

## WORK EXPERIENCE

- MIS Executive | DCDC Health Services Private Limited
- Managed and maintained admission, fee collection, OJT, and academic records for 1,000+ students using Advanced Excel, ensuring accurate and centralized data management.
- Developed and automated daily, weekly, and monthly MIS reports, reducing report preparation time by 60% and improving management reporting efficiency.
- Created interactive dashboards using Pivot Tables, XLOOKUP/VLOOKUP, Conditional Formatting, Data Validation, and Charts to monitor admissions, fee collection, and student performance KPIs.
- Analyzed fee collection data, identified discrepancies, and improved payment tracking accuracy through systematic monitoring and reporting.
- Streamlined database management processes, reducing manual data-entry errors by over 40% and enhancing data quality.
- Generated analytical reports and performance insights to support operational planning, academic evaluation, and business decision-making.
- Implemented data validation and quality-control procedures, achieving 99%+ data accuracy across reports and databases.
- Collaborated with cross-functional teams to identify reporting requirements, optimize MIS processes, and improve operational transparency.

## Project

**Online Bookstore Database Management | SQL Project**

- Built a relational database for an online bookstore using SQL.
- Analyzed sales, customer, and inventory data using JOINs, Aggregate Functions, and Subqueries.
- Generated insights on top-selling books, customer purchasing patterns, and revenue trends.
- Created reports to support data-driven business decisions.
- Technologies: SQL, Database Design, Joins, Subqueries, Data Analysis

**Air Quality Index (AQI) Analytics Dashboard**

- Designed an interactive Power BI dashboard to monitor air quality trends and pollutant levels.
- Performed data cleaning and Exploratory Data Analysis (EDA) to identify pollution patterns.
- Developed KPI reports and visualizations to support data-driven decision-making.
- Created interactive dashboards using Power BI, Excel, and SQL.
- Technologies: Power BI, SQL, Excel, EDA, KPI Reporting, Dashboard Development

## CERTIFICATE

- Certified in Data Science (9-Month Master Program) – ConsoleFlare

## EDUCATION

- Bachelor of Arts (B.A.) – Pursuing ( Final Year)
  School of Open Learning, University of Delhi

- Senior Secondary Education (Class XII – Arts with Economics) | 2024
  Government Girls Senior Secondary School
